

Donations & Sponsorships

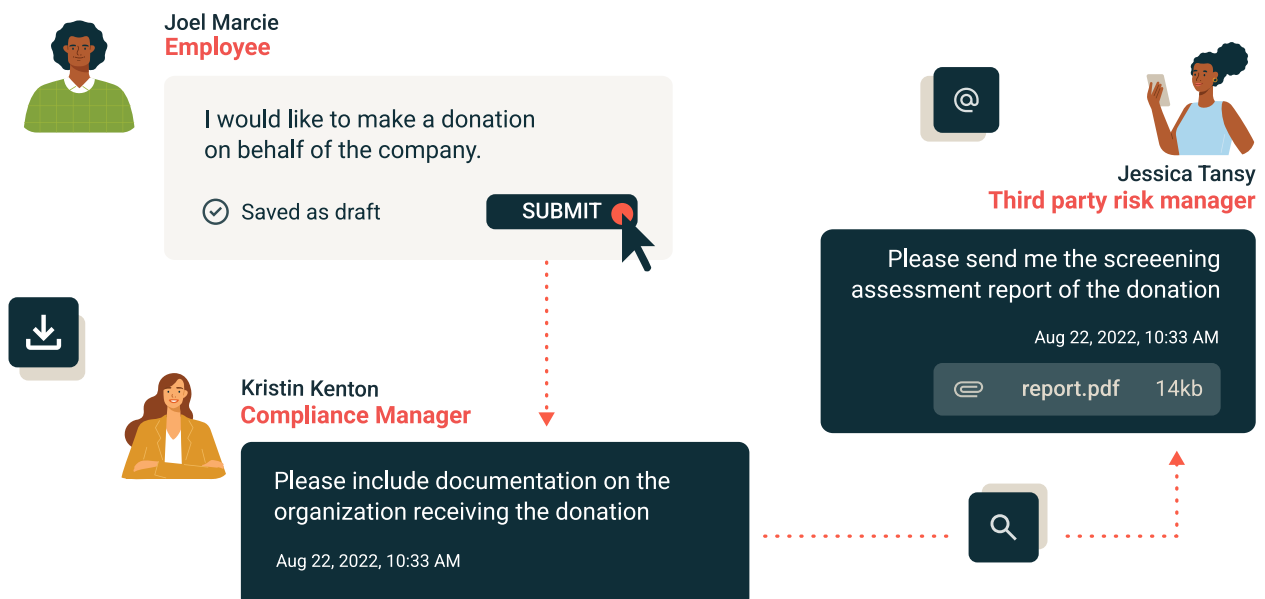

Protect your business's reputation by easily collecting donation and sponsorship declarations through an intuitive and easy-to-use platform.

Solution Benefits

Manage donations and sponsorships with a clear and intuitive process that enhances productivity throughout your business. The Integrity Platform Donations and Sponsorships application achieves just that and more by empowering your business through:

- **Higher engagement:** Processes are tailored to all stakeholders based on risk, operation, and region, allowing the right stakeholders to effectively process requests to strengthen accountability.
- **Increased adoption:** Enable all employees to know when and how to declare donations and sponsorships to ensure all requests are heard and captured in one place to provide transparency around risk.
- **Streamlined operations:** Improve productivity with flexible workflows and conditional routing to automate tasks and decrease the need for human intervention and error.
- **Meaningful insights:** Gain full visibility of donations and sponsorships across the business, proactively manage high-risk contributions and maintain a global overview in real-time.

How it works

Simplify donation and sponsorship risk management, deploy flexible workflows, and engage stakeholders business-wide.

Create a better user experience

Make sure that every employee can easily submit requests through a guided submission process that is clear and intuitive and captures all required data.

Elevate stakeholder collaboration

Tailor the review process to automatically involve the right stakeholders and allow reviewers to seamlessly communicate and follow-up on requests with integrated communications and activity logs.

Increase productivity around the business

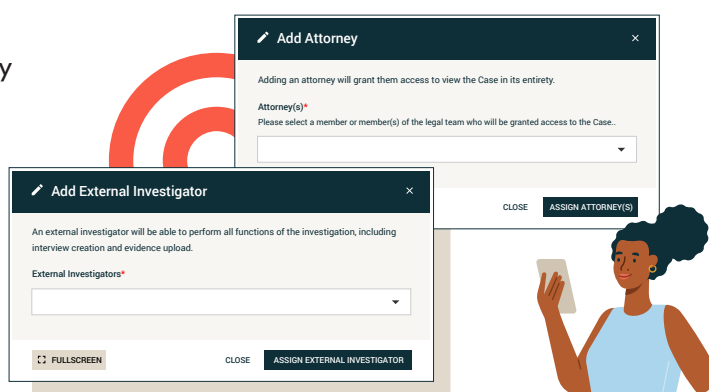

Apply your unique business rules and tailor approval flows to surface high-risk requests for additional scrutiny while automation allows you to automatically approve ones below pre-set thresholds.

Embed processes into the business

Connect your program to the rest of your enterprise platforms and tap into integrated risk intelligence to ensure donation recipients do not represent exposure risk.

Enhance your reporting experience

Leverage integrated reporting and analytics allowing you to connect data points across the platform and get a full overview of risk surrounding your donations program.

The Integrity Builder

Concretize your donation and sponsorship program without the limitations of traditional technology.

Because no one size fits all, every donation and sponsorship solution designed on the Integrity platform is custom-configured to meet your specific needs. With a flexible infrastructure you can tailor your program to design unique approval flows. Using dynamic and customizable user access controls you can accommodate your organizational structure to effectively engage stakeholders, at scale.
